Designed Smart

PD-1A Portable Display Warmers

Maximum Overhead Heat for Warming Areas

- Unique heating system provides uniform heat over the entire heating surface. Cold or hot spots are not a problem.
- Polished “mirror -finished” stainless steel reflectors behind heating elements radiate more heat toward food.

Easy To Use and Clean

- Lighted switch is a standard feature that keeps your employees aware of the unit’s operation.
- Made with “easy to clean” stainless steel.

DW-1A Portable Bulb Warmer

Attractive, sophisticated styling

- Excellent for carving stations, buffets, or catered events.
- Mirror-polished stainless steel shade around heat bulb offers a very upscale presentation that augments any serving situation.

Easy To Use and Clean

- DW-1A lamps are adjustable between 16 ¼” and 20” above the warming surface to allow for optimal heat levels on your food.

Built Solid

Most Durable Portable Warmers in the industry

- Stainless steel construction resists corrosion, is easy to clean, and presents an attractive appearance.
- PD-1A Warmers have a metal-sheathed heating elements that offer enhanced durability and “consumer safety” vs. quartz tube heating elements that shatter too easily.
- The DW-1A Warmers use shatter proof infrared bulbs.
- High Temperature insulated wire is used for long life.

PD-1A

DW-1A

Tri-Star Design Features

PD-1A

- All Stainless steel warmer
