

TRI-STAR ★★

HEAVY DUTY HOT PLATES

Model# TSHP-4-24

Standard Features

- *Stainless Steel front, sides, landing ledge.
- *35,000 BTU/hr. lift-off burner heads for performance cooking and easy cleaning.
- *Optional 40,000 BTU/hr. burner heads for super high performance cooking and easy cleaning.
- *Anti-clogging pilot shield design engineered into the grate.
- *All burners are equipped with continuous pilots for instant ignition.
- *12" x 12" heavy duty cast-iron section top-grate removes easily and accommodates a full range of cooking utensils for maximum versatility.
- *6" stainless steel landing ledge provides a functional working area.
- *Available in 12", 24", 36", 48" and 60" width models.
- *4" legs and stainless steel stands are available.
- *One year parts and labor warranty.

The Heavy Duty Hot Plates

TSI provides as standard many of the optional upgrades normally offered at a premium on other Hot Plate lines. TSI Features a stainless steel front, sides and landing ledge.

Models ranging from one to ten open burners are available. The lift-off burner heads simplify cleaning and the 35,000 or 40,000 BTU/hr. burner output provides high performance cooking. The heavy duty cast iron grates are designed in 12" x 12" sections to be removed easily and safely. For quick clean-ups, a full width, removable drip pan is standard on all Hot Plate models.

Constructed for durability, TSI Hot Plates are made of heavy gauge steel with an angle iron chassis. The sides have inside liners for better insulation and increased strength.

The front landing ledge of the Hot Plate series is designed to match all TSI counter model units.

Standard Exterior Finish

Stainless Steel: Front, landing ledge and sides.

Control Knobs: Durable, cool to the touch knobs.

Hot Plate Top

Open Burners: 35,000 or 40,000 BTU/hr. cast iron burners with lift-off burner heads. No gaskets, no screws. One standing pilot for each burner for instant ignition.

Burner Grates: 12" x 12" sections lift-off, heavy duty cast iron. Cast-in bowl directs heat upward.

Drip Pan: Full width removable drip pan.

Optional Items

40,000 BTU/hr. burner available upon request.

Stainless steel stand; casters (front two are locking); quick disconnect and flexible gas hose. 4" adjustable legs.

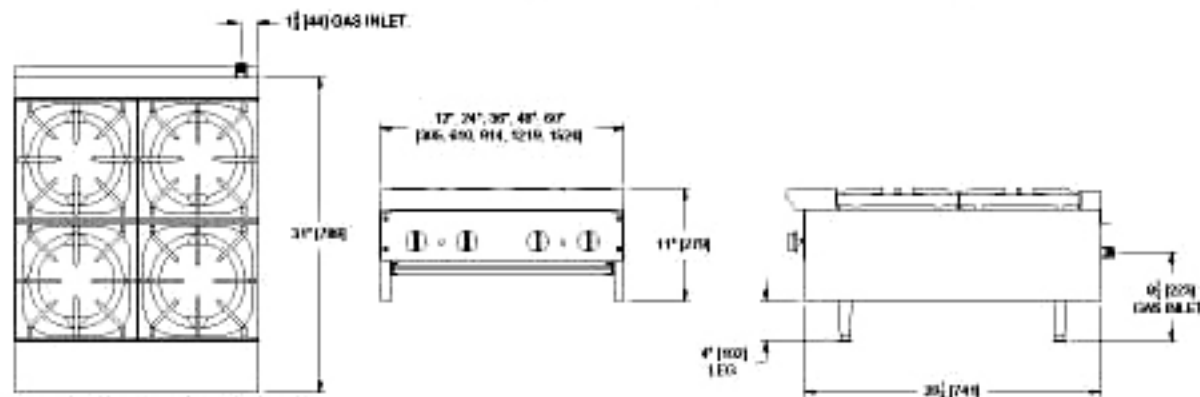

Gas

Manifold pressure is 5.0" W.C. for natural gas or 10.0" for propane gas. Manifold size 3/4" NPT. Specify type of gas and elevation if over 2,000 ft.

Clearance

For use only on non-combustible surfaces. Legs or stands are required for non-combustible floors. Provide 0" clearance from non-combustible surfaces and 8" from back, 10" from sides from combustible surfaces.
